## PROFILE

I am an energetic IT Engineering student with a flair for web development. Proficient in front-end and back-end technologies, creating seamless, user-centric web experiences. Enthusiastic about contributing innovative solutions to real-world challenges.

## SKILLS

- Front-End Development
- Back-End Proficiency
- Database Management
- Version Control
- Responsive Design
- Debugging and Troubleshooting

## EXPERIENCE

### Internship - CrEAST, LNT Company July 2023

Engaged in a dynamic internship at CrEAST, an initiative by LNT Company, where I passionately mentored and guided secondary school students in the field of web development. Leveraging my expertise, I delivered interactive lessons, fostering practical skills in HTML, CSS, and JavaScript, and facilitating an environment conducive to innovative learning.

## EDUCATION

Don Bosco Institute of Technology  
Bachelor of Engineering in  
Information Technology -2025  
7.6 CGPA

ASJR College HSC-2021  
92%

BLVN School SSC- 2019  
93.4%

## PROJECT

### Face Recognition System

Utilized Python and machine learning techniques to develop a face recognition system. Employed OpenCV for image processing and a pre-trained deep learning model for feature extraction.
